APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to

exceed.....0.0053.....cubic feet per second, or sufficient to water

.....150 cattle and 20 horses.

Work must be prosecuted with reasonable diligence and be completed on or before.....December 6, 1997

Proof of completion of work shall be filed before.....January 6, 1998

Application of water to beneficial use shall be filed on or before.....December 6, 2000

Proof of the application of water to beneficial use shall be filed on or before.....January 6, 2001

Map in support of proof of beneficial use shall be filed on or before.....N/A

Completion of work filed.....DEC 01 1997

Proof of beneficial use filed.....JAN 24 2001
